ICE Model

Revolutionary 15 air-guiding Fan Blades for unprecedented airflow performance with ultra-low noise level.

Exclusive FLUXUS PRO II bearing based in Fluid Dynamic Bearing Technology for more than 200.000 hrs lifespan and ultra-silent operation.

- Special Voltage reduction cable included for Ultra-performance or Ultra-quiet operation.
- Professional Anti-vibration screws, 3-4pin adaptor and black sleeved cables included.
- Ultra-silent: 9dB-15dB and Ultra-Airflow: 32.5-78 CFM

Standard Connection

Rated Voltage:	12V
Starting Voltage:	≤ 6V
Power Consumption:	2.16W
Rated Current:	0.18A
Speed:	1200 RPM±10%
Air Flow:	78 CFM
Air Pressure:	0.686 mm -H ₂ O
Noise:	15dBA
MTBF:	200.000 hours

Connect with Voltage reduction cable

Rated Voltage:	(To FAN)7V
Starting Voltage:	≤ 6V
Power Consumption:	1.2W
Rated Current:	0.10A
Speed:	700 RPM±10%
Air Flow:	32.5 CFM
Air Pressure:	0.305 mm -H ₂ O
Noise:	9dBA
MTBF:	200.000 hours
